<u>Screens</u>	1,900	>200
<u>Memory</u>	1MB Flash (non-volatile) 4MB Operating RAM	1MB Flash
<u>Simulation Mode</u>	Yes	No
<u>Pricing</u>	6" 256-color STN \$ 599	QPK2D100-S2P \$2,495
	6" 256-color STN with Ethernet & CF \$699	
	6" 256-color TFT \$899	
	6" 256-color TFT with Ethernet & CF \$999	

Less money - more features and function ...

Pay less - get more. It seems a novel concept in today's world, but its one of our core values. Our customers save money and still get a quality product that outperforms the competition by leaps and bounds. And that's a promise you can take to the bank.

- Over 200 more colors
- Faster processor speed
- More memory
- More powerful graphics capability
- More design freedom
- More functional graphics
- **Thousands less than theirs!**
